INDEPENDENT AUDITOR'S REPORT

To the members of Dubai Islamic Bank Pakistan Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **Dubai Islamic Bank Pakistan Limited** ("the Bank"), which comprise the statement of financial position as at 31 December 2023, and the profit and loss account, the statement of comprehensive income, the statement of changes in equity and cash flow statement for the year then ended, along with unaudited certified returns received from the branches except for twenty three branches which have been audited by us and notes to the financial statements, including material accounting policy information and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the profit and loss account, the statement of comprehensive income, the statement of changes in equity and cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan, and, given the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Bank's affairs as at 31 December 2023 and of the profit, the comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Chairman's review and Director's report for the year ended 31 December 2023 but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

KPMG Taseer Hadi & Co.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.

KPMG Taseer Hadi & Co.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. Based on our audit, we further report that in our opinion:
 - a) proper books of account have been kept by the Bank as required by the Companies Act, 2017 (XIX of 2017) and the returns referred above from the branches have been found adequate for the purpose of our audit;
 - b) the statement of financial position, the profit and loss account, the statement of comprehensive income, statement of changes in equity and cash flow statement together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
 - c) investments made, expenditure incurred and guarantees extended during the year were in accordance with the objects and powers of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank; and
 - d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

KPMG Taseer Hadi & Co.

2. We confirm that for the purpose of our audit we have covered more than sixty per cent of the total loans and advances of the Bank.

Other Matter

The financial statements of the Bank for the year ended 31 December 2022, were audited by another firm of chartered accountants who expressed an unmodified opinion on those financial statements vide their audit report dated 16 February 2023.

The engagement partner on the audit resulting in this independent auditor's report is Zeeshan Rashid.

Date: 6 February 2024

Dubai Islamic Bank Pakistan Limited

Notes to the Accounts

For the year ended December 31, 2023

1 STATUS AND NATURE OF BUSINESS

- 1.1 Dubai Islamic Bank Pakistan Limited (the Bank) was incorporated in Pakistan as an unlisted public limited company on May 27, 2005 under the Companies Act, 2017 to carry out the business of an Islamic Commercial Bank in accordance with the principles of Islamic Shari'a.
- 1.2 The State Bank of Pakistan (the SBP) granted a "scheduled islamic commercial bank" license to the Bank on November 26, 2005 and subsequently the Bank received the certificate of commencement of business from the Securities and Exchange Commission of Pakistan (the SECP) on January 26, 2006. The Bank commenced its operations as a scheduled Islamic Commercial Bank with effect from March 28, 2006 on receiving certificate of commencement of business from the SBP. The Bank is principally engaged in corporate, commercial, consumer, investing and retail banking activities.
- 1.3 VIS Credit Rating Company Limited on June 26, 2023 has reaffirmed the Bank's medium to long-term rating at 'AA' (Double A) and the short term rating at 'A-1+' (A-One Plus) with stable outlook.
- 1.4 The Bank is operating through 235 branches as at December 31, 2023 (2022: 235 branches). The registered office of the Bank is situated at Hassan Chambers, DC-7, Block-7 Kehkashan, Clifton, Karachi. The Bank is a wholly owned subsidiary of Dubai Islamic Bank PJSC, UAE (the Holding Company).

2 BASIS OF PRESENTATION

The Bank provides Islamic financing and makes investments mainly through Murabaha, Musharaka, Running Musharaka, Shirkatulmilk, Istisna cum Wakala, Wakala Istithmar and export refinance under Islamic export refinance schemes as well as various long term refinancing facility of the SBP respectively as briefly explained in the notes to these financial statements. The transactions of purchases, sales and leases executed under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of rental / profit thereon. The income on such Islamic financing and related assets is recognised in accordance with the principles of Shari'a. However, income if any, received which does not comply with the principles of Shari'a is recognised as charity payable if so directed by the Shari'a Board / Resident Shari'a Board Member of the Bank.

2.1 Statement of Compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan, as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the SBP and the SECP.

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of the IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

The SBP has deferred the applicability of International Accounting Standard (IAS) 39 - 'Financial Instruments: Recognition and Measurement' and IAS 40 - 'Investment Property' for Banking Companies in Pakistan through BSD Circular Letter 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of IFRS 7 - 'Financial Instruments: Disclosures' through its notification S.R.O 633(I)/2014 dated July 10, 2014. Accordingly, the requirements of these standards have not been considered in the preparation of these financial statements. However, investments have been classified and valued in accordance with the requirements prescribed by the SBP through various circulars.

The SBP vide its BPRD Circular Letter No. 4 dated February 25, 2015, has clarified that the reporting requirements of IFAS 3, 'Profit and Loss Sharing on Deposits', for Islamic Banking Institutions (IBIs) relating to annual, half-yearly and quarterly financial statements would be notified by the SBP through issuance of specific instructions and uniform disclosure formats in consultation with IBIs. These reporting requirements have not been ratified to date. Accordingly, the disclosure requirements under IFAS 3 have not been considered in preparation of these financial statements.

2.2 Standards, interpretations of and amendments to published accounting and reporting standards that are effective in the current year

There are certain new and amended standards, interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after January 01, 2023 but are considered not to be relevant or do not have any significant effect on the Bank's operations and therefore not detailed in these financial statements.

	Effective from Accounting period beginning on or after
Amendments to IAS 1 'Presentation of Financial Statements' - Disclosure of accounting policies	January 01, 2023
Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - Definition of accounting estimates	January 01, 2023
Amendments to 'IAS 12 Income Taxes' - deferred tax related to assets and liabilities arising from a single transaction.	January 01, 2023

2.3 Standards, interpretations of and amendments to published accounting and reporting standards that are not yet effective

The following amendments are only effective for accounting periods, beginning on or after the date mentioned against each of them

- IAS 1 - Non current liabilities with covenants (amendments)	January 01, 2024
- IAS 1 - Classification of liabilities in a sale and leaseback (amendments)	January 01, 2024
- IFRS 16 - Sale and leaseback (amendments)	January 01, 2024
- IAS 21 - Lack of exchangeability (amendments)	January 01, 2025

In addition to above amendments, the International Accounting Standards Board (IASB) has also issued the following standards which are yet to be notified by the SECP for the purpose of applicability in Pakistan:

- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)

2.3.1 IFRS 9 Financial Instruments

As directed by the State Bank of Pakistan (SBP), via BPRD Circular no. 07 of 2023 dated 13 April 2023, IFRS 9 Financial Instruments is effective for periods beginning on or after 1 January 2024.

SBP via its BPRD Circular No. 03 of 2022 has provided detailed instructions on implementation of IFRS 9 (the Application Instructions) for ensuring smooth and consistent implementation of the standard across banks.

IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. The standard includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39.

During the year 2023, the management of the Bank continued to perform parallel run assessments for IFRS 9, taking into account the SBP's IFRS 9 application instructions. The assessments were based on available information that existed at respective parallel run reporting cut offs and were subject to changes that could arise from further reasonable and supportable information being made available to the Bank at the time of finalizing the impact for initial application of IFRS 9.

Classification and measurement

Under the new standard, classification and measurement of financial assets depends on how these are managed (the entity's business model) and their contractual cash flow characteristics. Financial assets that do not meet the Solely Payment of Principal and Profit (SPPI) criteria are required to be measured at FVTPL regardless of the business model in which they are held. The Bank's business model in which financial assets are held will determine whether the financial assets are to be measured at amortized cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL'). The Bank has analyzed the impact of initial application of IFRS 9 on its financial assets as follows:

Debt securities and Islamic Financing and related assets

Debt securities currently classified as AFS and those which pass SPPI test, are expected to be measured at FVOCI under IFRS 9 as the business model is to hold the assets to collect contractual cash flows, but also to sell those investments.

Impairment

The impairment requirements under IFRS 9, apply to financial assets measured at Amortized Cost and FVOCI (other than equity instruments), Financing and receivables, and certain Islamic financing commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk (SICR), an allowance (or provision) is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL').

Financial assets where 12-month ECL is recognized are in 'stage 1'; financial assets that are considered to have experienced a SICR are in 'stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'stage 3'.

The assessment of credit risk and the estimation of ECL should be unbiased and probability-weighted and would incorporate all available information which is relevant to the assessment including information about past events, current conditions and reasonable and supportable forecasts of economic conditions at the reporting date. In addition, the estimation of ECL would take into account the time value of money.

Based on the requirements of IFRS 9 and SBP's IFRS 9 application instructions, the Bank has performed an ECL assessment considering the key elements such as assessment of SICR, Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These elements are described below:

- PD: The probability that a counterparty will default, calibrated over the 12 months from the reporting date (stage 1) or over the lifetime of the product (stage 2) and incorporating forward looking information.
- LGD: It is an estimate of magnitude of loss sustained on any facility upon default by a customer. It is expressed as a percentage of the exposure outstanding on the date of classification of an obligor. It is the difference between contractual cash flows due and those that the Bank expects to receive, including any form of collateral.
- EAD: the expected balance sheet exposure at the time of default, incorporating expectations on drawdowns, amortization, pre-payments and forward-looking information where relevant.

For the purpose of calculation of ECL, the Bank has used 8 years data till 31 December 2023 and going forward, one more year's data shall be included until the Bank has at least 10 years data.

Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Bank uses a number of qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or profit payments are 60 days or more past due.

Based on the level of increase in credit risk, the Bank shall calculate 12-month ECL for assets which did not have a SICR i.e., Stage 1 or a lifetime expected loss for the life of the asset (for assets which demonstrated a SICR) i.e., Stage 2.

At every reporting date, the Bank shall assess whether there has been a SICR since the initial recognition of the asset. If there is a SICR, the asset must be assigned to the appropriate stage of credit impairment (Stage 2 or 3).

Under the SBP's instructions, credit exposure (in local currency) guaranteed by the Government and Government Securities are exempted from the application of ECL Framework. Moreover, until implementation of IFRS 9 has stabilized, Stage 1 and stage 2 provisions would be made as per IFRS 9 ECL criteria and Stage 3 provisions would be made considering higher of IFRS 9 ECL or provision computed under existing PRs' requirements.

As required by the Application Instructions, financial assets may be reclassified out of stage 3 if they meet the requirements of PR issued by the SBP. Financial assets in stage 2 may be reclassified to stage 1 if the conditions that led to a SICR no longer apply. However, a minimum cooling period of 12 months for non-retail facilities and 6 months for retail facilities is required before any Stage 2 client moves back to Stage 1.

Presentation and disclosure

IFRS 9 also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extent of Bank's disclosure about its financial instruments particularly in the year of adoption of the standard.

The State Bank of Pakistan vide BPRD Circular No 03 of 2023 dated 9 February 2023 has issued revised formats for annual as well as interim financial statements of Banks for the accounting periods starting from 1 January 2024, which include the presentation and disclosures of adoption of IFRS 9 as applicable in Pakistan.

Islamic financing related fee

Islamic financing origination / commitment fees that are regarded as compensation to the financier for an ongoing involvement with the acquisition of a financial instrument would be recognized over the life of the related financing. However, if the commitment expires without the financier making the financing, the fee would be recognized as revenue earned.

Additional requirements and exceptions introduced by SBP Instructions

SBP has enforced the application of IFRS 9 in its entirety except for some exceptions and additional requirements. A high-level comparison of such exceptions that are relevant to the Bank is as follows:

(i) Rebuttable presumptions about default and SICR

IFRS 9 includes a rebuttable presumption that a default does not occur later than 90 days past due and it also presumes that there is SICR if credit exposure is more than 30 days past due. In order to bring consistency, SBP has allowed the backstop to the rebuttable presumption of days past due of credit portfolio against a specific credit facility and its stage allocation under IFRS 9 as mentioned in Annexure-C of BPRD Circular no 3 of 2022. However, banks are free to choose more stringent days past due criteria.

(ii) Income recognition on impaired assets

The Banks are advised to recognize income on impaired assets (loans classified under PRs i.e. OAEM and Stage 3 loans) on a receipt basis in accordance with the requirements of Prudential Regulations issued by SBP.

(iii) Impact of Provisions on Regulatory Capital

The banks are allowed to include provisions for Stage 1 and Stage 2 in Tier 2 capital up to a limit of 1.25% of total credit risk-weighted assets. In order to mitigate the impact of ECL provisioning on capital, a transitional arrangement is allowed to the banks to absorb the impact on regulatory capital. Accordingly, banks, which choose to apply transitional arrangement, may implement this arrangement in accordance with SBP's Guideline for absorption of ECL for CAR Purposes as mentioned in Annexure-C of BPRD Circular no 3 of 2022.

Impact of adoption of IFRS 9

The Bank will adopt IFRS 9 in its entirety effective 01 January 2024 with modified retrospective approach for restatement. The actual impact of adopting IFRS 9 on the Bank's financial statements in the year 2023 may not be accurately estimated because it will be dependent on the financial instruments that the Bank would hold during next year and economic conditions at that time as well as accounting elections and judgements that it will make in future. Nevertheless, the Bank has performed a preliminary assessment of the potential impact of adoption of IFRS 9 based on its statement of financial position as at 31 December 2023.

Based on the Bank's assessment, the IFRS 9 requirements are not likely to have a significant impact on the classification and measurement of some of its financial assets and financial liabilities and capital ratios of the Bank.

Governance, ownership and responsibilities

The Bank has adopted a governance framework requiring the Board of Directors, Board Risk Monitoring Committee (BRMC), Risk Management Committee (RMC), and IFRS 9 Steering committee to effectively work together to ensure input from all business lines. IFRS 9 requires robust credit risk models that can predict Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

The Bank has developed Models/ methodologies for PD, LGD and Credit Conversion Factors (CCF). These models shall be validated on annual basis considering the following aspects:

- Quantitative Validation: Expected credit loss (ECL) model design validation, data quality validation and benchmarking with external best practices.
- Quantitative Validation: Calibration testing which ensures the accuracy of the observed PDs.

The Bank will define the staging criteria for the new impairment model and take ownership of all models, methodologies and the ECL calculation approach

The Bank will perform ECL calculation and will assess the financial impact, meet the financial reporting requirements and further monitor the impact on the financial ratios. The Bank shall also present quarterly progress report to its relevant Board Sub Committee.

2.4 Critical accounting estimates and judgments

The preparation of financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and income and expenses. It also requires management to exercise judgment in application of its accounting policies. The estimates and associated assumptions are continually evaluated and are based on historical experience and various other factors including expectation of future events that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an ongoing basis. Actual results may differ from these estimates. Revisions to accounting estimates, if any, are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

The significant accounting areas where various assumptions and estimates are significant to the Bank's financial statements or where judgment was exercised in the application of accounting policies are as follows:

- i) classification, valuation and provisioning against investments (notes 4.3 and 8)
- ii) classification and provisioning against Islamic financing and related assets (notes 4.4 and 9)
- iii) assumption and estimation in recognition of provision for taxation and deferred taxation (notes 4.6, 12 and 30)
- iv) determination of useful lives and depreciation / amortisation (notes 4.5, 10 and 11)
- v) accounting for defined benefit plan (notes 4.12 and 34)
- vi) determination of the lease term and incremental fund acceptance rate for lease contracts (note 4.10)
- vii) provision, contingent assets and liabilities (note 4.18 and 22)

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These financial statements have been prepared under the historical cost convention, except that available for sale investments and derivative financial instruments are carried at fair value. Further, net obligations in respect of defined benefit schemes and ijarah (lease) liabilities which are carried at their present values.

3.2 Functional and presentation currency

These financial statements have been presented in Pakistani Rupees, which is the Bank's functional and presentation currency.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These have been consistently applied to all the years presented.

4.1 Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statements comprise of cash, balances with treasury banks, balances with other banks in current and deposit accounts and overdrawn nostro accounts.

4.2 Due to / from financial institutions

Commodity Murabaha

In Commodity Murabaha, the Bank sells commodities on credit to other financial institutions. The credit price is agreed at the time of sale and such proceeds are received at the end of the credit period.

Bai Muajjal

In Bai Muajjal, the Bank sells sukuk on credit to other financial institutions. The credit price is agreed at the time of sale and such proceeds are received at the end of the credit period.

Musharaka / Mudaraba

In Musharaka / Mudaraba, the Bank invests in the shari'a compliant business pools of the financial institutions at the agreed profit and loss sharing ratio.

Musharaka from State Bank of Pakistan under Islamic Export Refinance Scheme (IERS)

Under IERS, the Bank accepts funds from the SBP under Shirkat-ul-Aqd to constitute a pool for investment in export refinance portfolio of the Bank under guidelines issued by the SBP. The profit of the pool is shared as per the agreed weightages between the partners.

Mudaraba investments from the SBP under Islamic Long Term Financing Facility and other refinance schemes

The Bank accepts funds from the SBP for financial assistance on Mudaraba basis for investment in general pool of the Bank. The profit of the pool is shared as per the announced profit sharing ratio of the pool and the weightages assigned to these investments.

4.3 Investments

4.3.1 Classification

Investments of the Bank are classified as follows:

(a) Held-for-trading

These are investments, which are either acquired for generating profits from short-term fluctuations in market prices or are securities included in a portfolio for which there is evidence of a recent actual pattern of short-term profit taking.

(b) Held-to-maturity

These are investments with fixed or determinable payments and fixed maturity that the Bank has the positive intent and ability to hold till maturity.

(c) Available-for-sale

These are investments which do not fall under the 'held for trading' or 'held to maturity' categories.

4.3.2 Regular way contracts

All purchases and sales of investments that require delivery within the time frame established by regulation or market convention are recognised at trade date, which is the date on which the Bank commits to purchase or sell the investments.

4.3.3 Initial recognition and measurement

Investments other than those categorised as 'held for trading' are initially recognised at fair value which includes transaction costs associated with the investment. Investments classified as 'held for trading' are initially recognised at fair value and transaction costs are expensed in the profit and loss account.

4.3.4 Subsequent measurement

Subsequent to initial recognition investments are valued as follows:

(a) Held-for-trading

These are measured at subsequent reporting dates at fair value. Gains and losses on remeasurement are included in the profit and loss account.

(b) Held-to-maturity

These are measured at amortised cost using the effective profit rate method, less any impairment loss recognised to reflect irrecoverable amount.

(c) Available for sale

In accordance with the requirements specified by the SBP, quoted securities other than those classified as 'held to maturity' are subsequently re-measured to market value. Unquoted equity securities are valued at the lower of cost and break-up value. Break-up value of unquoted equity securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. Investment in other unquoted securities are valued at cost less impairment losses, if any.

Surplus / deficit arising on revaluation of quoted securities which are classified as 'available for sale', is included in the statement of comprehensive income and is shown in the statement of financial position as part of equity. On derecognition of available-for-sale investments, the cumulative gain / loss, if any, previously reported in other comprehensive income is transferred to profit and loss account for the period within statement of comprehensive income.

4.3.5 Impairment

Impairment loss in respect of investments classified as available for sale and held to maturity (except sukuk) is recognised based on management's assessment of objective evidence of impairment as a result of one or more events that may have an impact on the estimated future cash flows of the investments. A significant or prolonged decline in fair value of an equity investment below its cost is also considered an objective evidence of impairment. Provision for diminution in the value of sukuk is made as per the Prudential Regulations issued by the SBP. In case of impairment of available for sale securities, the cumulative loss that previously reported in other comprehensive income is transferred to profit and loss account for the year. For investments classified as held to maturity, the impairment loss is recognised in the profit and loss account.

4.3.6 Gains or losses on sale of investments are included in the profit and loss account for the year.

4.4 Islamic financing and related assets

The products originated by the Bank principally comprise of Murabaha, Running Musharaka, Wakala, Wakala Istithmar, Istisna cum Wakala, Tijarah, Islamic Export Refinance Scheme and Shirkatulmilk. These are stated net of general and specific provisions.

Murabaha to the purchase orderer is a sale transaction wherein the first party (the Bank) sells to the client / customer a shari'a compliant asset / good for cost plus a pre-agreed profit after getting title and possession of the same. On the basis of an undertaking (Promise-to-Purchase) from the client (the purchase orderer), the Bank purchases the goods / assets subject of the Murabaha from a third party and takes the possession thereof. However, the Bank can appoint the client as its agent to purchase the goods / assets on its behalf. Thereafter, it sells it to the client at cost plus the profit (agreed upon).

Import Murabaha is a product used to finance a commercial transaction which consists of purchase by the Bank (generally through an undisclosed agent) the goods from the foreign supplier and selling them to the customer after getting the title to and possession of the goods. Murabaha financing is extended to all types of trade transactions i.e. under Documentary Credits (LCs) and Documentary Collections.

Musharaka is a form of partnership in business with distribution of profit in agreed ratio and distribution of loss in the ratio of capital invested.

In Shirkat-ul-Milk, the Bank and the customer become co-owners in certain identified assets by acquiring the same from a third party or by purchase of an undivided share of an asset from the customer by the Bank. Thereafter, the customer / co-owner undertakes to purchase the share of the Bank from the Bank in a manner that the Bank would recover its cost plus the desired profit over a period of time (i.e. till the maturity of the facility). At the end of the facility term the Bank at its own discretion may sell its share to the customer at a nominal price.

Wakala Istithmar has been developed to facilitate exporters through investment agency where the customer acts as the investment agent of the Bank. This medium is used to cater to the export based customer's financial needs i.e. help the customer to bridge the gap between the commencement of the manufacturing process and the dispatch of goods to the ultimate buyer / buyers.

Istisna cum Wakala product has two legs: first the Bank acquires the described goods by way of Istisna to be manufactured by the customer from raw material of its own and once the goods are delivered to the Bank, the customer through an independent agency contract, sells the same to various end-users as the agent of the Bank.

Salam is a sale transaction where the seller undertakes to supply some specific goods to the buyer at a future date against an advance price fully paid on spot.

In Running Musharaka financing, the Bank enters into financing with the customer based on Shirkat-ul-Aqd or Business Partnership in customers operating business. Under this mechanism the customer can withdraw and return funds to the Bank subject to his Running Musharaka Financing limit during the Musharaka period. At the end of each quarter / half year the customer pays the provisional profit as per the desired profit rate which is subject to final settlement based on the relevant quarterly/half-yearly/annual accounts of the customer.

In Tijarah financing, the Bank purchases specific goods / commodities on cash basis from its customers which is then onward sold by the customer on behalf of the Bank and on subsequent sale, the financed amount along with profit is paid by the customer to the Bank.

In Musawamah financings, the Bank purchases the goods and after taking the possession, sells them to the customer either in spot or credit transaction, without disclosing the cost.

Inventory

The Bank values its inventories at the lower of cost or net realisable value. The net realisable value is the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale. Cost of inventories represents actual purchases made by the Bank / customers as an agent of the Bank for subsequent sale.

Specific provision

The Bank maintains specific provision for non performing Islamic financing based on the requirements specified in the Prudential Regulations issued by the SBP.

General provision

In accordance with the Prudential Regulations issued by SBP, unless specific exemption is available from SBP (note 9.13.3), the Bank maintains general provisions as follows:

	Secured	Unsecured
Consumer financings (including housing finance)	0.5% - 1.5%	5.0%

The SBP vide its letter no. BPRD/BLRP-04/DIB 2013/1644 dated October 15, 2009 has allowed relaxation to the Bank for recognizing general provision against Musharaka cum Ijara-Autos on the condition that the facility will be categorized as 'Loss' on the 180th day from the date of default.

In this regard, the SBP vide its letter no. BPRD/BLRP-04/DIB 2013/1644 dated February 15, 2013 has decided that the exemption from general reserve requirement shall only be valid till classified Auto financing portfolio of the Bank remain up to 5% of total auto financing of the Bank i.e. if the classified auto financing portfolio increases beyond 5% threshold, the exemption shall stand withdrawn from that point of time.

The net provision made / reversed during the year is charged to the profit and loss account and accumulated provision is netted off against Islamic financing and related assets. Islamic financing and related assets are written off when there are no realistic prospects of recovery.

4.5 Fixed assets and intangibles

4.5.1 Property and equipment

These assets are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is charged to income by applying the straight line method over the estimated useful lives of the assets, using the rates specified in note 10.2 to these financial statements. The depreciation charge for the year is calculated after taking into account residual value, if any. Depreciation is charged from the month of acquisition and upto the month preceding the month of disposal.

The assets residual values, if significant, and their useful lives are reviewed and adjusted, if appropriate, at each reporting date.

Maintenance and normal repairs are charged to profit and loss account as and when incurred. Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably.

Gains and losses on disposal of property and equipment, if any, are taken to the profit and loss account.

4.5.2 Right-of-Use (RoU) assets

At the commencement date of the lease, the right-of-use asset is initially measured at the present value of lease liability. Subsequently, RoU assets are measured at cost, less accumulated depreciation and any impairment losses, and adjusted for any premeasurement of lease liabilities and prepayments. RoU assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

4.5.3 Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any.

4.5.4 Intangible assets

Intangible assets having a finite useful life are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Such intangible assets are amortised using the straight-line method over their estimated useful lives. The useful lives and amortisation method are reviewed and adjusted, if appropriate at each reporting date. Intangible assets having an indefinite useful life are stated at acquisition cost, less impairment loss, if any. Amortisation is charged from the month of acquisition and upto the month preceding the month of deletion using the rates specified in note 11.1 to these financial statements.

4.5.5 Impairment

The Bank assesses at each reporting date whether there is any indication that the fixed assets and intangibles may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amounts. Where carrying values exceed the respective recoverable amounts, assets are written down to their recoverable amounts and the resulting impairment charge is recognised in the profit and loss account.

4.6 Taxation

Income tax expense comprises of current, prior and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items recognised in other comprehensive income, in which case it is recognised in other comprehensive accordingly.

Current

Provision for current taxation is based on taxable income for the year, at current rates of taxation, after taking into consideration available tax credits, rebates and tax losses as required under the Seventh schedule to the Income Tax Ordinance, 2001. The charge for current tax also includes adjustments, where considered necessary relating to prior years, which arises from assessments / developments made during the year.

Deferred

Deferred tax is recognised using the liability method on all major temporary differences between the carrying amounts of assets and liabilities used for financial reporting purposes and amounts used for taxation purposes. Deferred tax is calculated using the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

The carrying amount of the deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

4.7 Deposits

Deposits are generated on the basis of two modes i.e. Qard and Mudaraba.

Deposits taken on Qard basis are classified as 'Current accounts' and deposits generated on mudaraba basis are classified as 'Savings deposits' and 'Fixed deposits'. No profit or loss is passed on to current account depositors. While the product features of each product differ, there is usually no restriction on withdrawals or number of transactions in current and saving accounts. In case of fixed deposits, pre-mature withdrawals can be made as per approved terms only.

Profits realised in common pool are distributed between the Bank and the depositors in proportion to their respective share in the pool. All Mudaraba based deposits are fully invested in the Common Pool to produce returns for them. In case where the Bank is unable to utilise all funds available for investment, priority is given to the deposit account holders. Rab-ul-Maal share is distributed among depositors according to weightages assigned at the inception of profit calculation period. Mudarib can distribute its share of profit to Rab-ul-Maal upto a maximum of 60% of their profit as incentive profits (General Hiba).

Profits are distributed from the pool such that the depositors (remunerative) only bear the risk of assets in the pool during the profit calculation period. In case of loss in a pool during the profit calculation period, the loss is distributed among the depositors (remunerative) according to their ratio of investments.

When foreign currency deposits are swapped for investment in local currency, the swap element is separated from foreign exchange income and is charged to profit / return expensed directly (note 24).

4.8 Pool Management

The Bank operates general and specific pools for deposits and inter-bank funds accepted / acquired under Mudaraba and Musharaka modes.

Under the general deposits pool, the Bank accepts funds on Mudaraba basis from depositors (Rab-ul-Maal) where the Bank acts as Manager (Mudarib) and invests the funds in the Shari'a Compliant modes of financing, investments and placements. When utilising and investing funds, the Bank prioritises the funds received from depositors over the funds generated from own sources after meeting the regulatory requirement relating to such deposits.

Specific pools are operated for funds acquired / accepted from the SBP under IERS, high net-worth individuals / companies / financial institutions and other banks for investments in Shari'a compliant modes of financing and liquidity management under the Musharaka / mudaraba / Wakala modes respectively.

The profit of each deposit pool is calculated on all the remunerative assets booked by utilising the funds from the pool after deduction of expenses directly incurred in earning the income of such pool along with related fee income, if any. The directly related costs comprise of tracker and similar related costs. No expense of general or administrative nature is charged to pools. No provision against any non-performing asset of the pool is passed on to the pool except on the actual loss / write-off of such non-performing asset. Further, provisions passed on to the pool in prior periods have been credited to pool income in the current period as reduction in expense to the extent of recovery of provision previously charged to the pool. The profit of the pool is shared between equity and other members of the pool on pro-rata basis at gross level (i.e. before charging of mudarib fee) as per the investment ratio of the equity. The profit of the pool is shared among the depositors of the pool on pre-defined mechanism based on the weightages announced before the commencement of profit calculation period after charging mudarib fee. Incentive profits (General Hiba) is allocated to the depositors based on SBP guidelines across the board.

General Pool

For General Pool, the Bank allocates financing to Corporate, SME and Consumer Finance customers in diversified sectors and avenues of the economy / business as mentioned in note 42. All remunerative deposits are tagged to these general pool and their funds generated from the depositors are invested on priority basis. Depositors are Rabb-ul-Maal as they are the provider of capital while the Bank acts as Mudarib by investing these funds in business. Since there are more than one Rabb-ul-Maal (depositor), their mutual relationship is that of Musharaka. Profit is shared among Mudaraba partners (Bank and depositors) as per pre-agreed profit sharing ratio. Whereas, profit sharing among the depositors is based on pre-assigned weightages. Loss, if any, is borne by Rabb-ul-Maal as per the principles of Mudaraba.

Islamic Export Refinance - Musharaka Pool

The IERS pool assets comprise of Sovereign Guarantee Sukuk, and financing to / sukuk of blue chip companies and exporters as allowed under the applicable laws and regulations, and as such are exposed to lower credit risk. In this Scheme, the SBP enters into a Musharaka arrangement with the Bank for onward financing to exporters and other blue chip companies on the basis of Shari'a compliant modes such as Murabaha, Istisna, etc. Under the scheme, the SBP is required to share in profit and loss of the Bank's IERS Musharaka pool.

Interbank Musharaka / Mudaraba Pools

The pool assets generally comprise of Sovereign Guarantee Sukuk only and the related liability of the Financial Institution (FI) pool comprise of Musharaka/Mudaraba from other banks and financial institutions. These pools are created to meet the liquidity requirements of the Bank.

Key features and risk & reward characteristics of all pools

The risk characteristics of each pool mainly depends on the assets and liability profile of each pool. As per the Bank's policy, relatively low risk / secured financing transactions and assets are allocated to general depositors pool. The Bank maintains General Pool, FI Pools, IERS pool and Equity pool. The general pool are exposed to general credit risk, asset ownership risk and profit rate risk of the underlying assets involved.

The pool is exposed to Asset Risk which is the risk that is associated with Islamic mode of finance(s) applied / used under the transaction structure(s). The Bank is well equipped to identify and properly mitigate such risk. The Bank also analyses transaction structure of each customer to further ensure proper safeguard of depositors' interest. The review is done by a team of professionals having considerable experience in the field of Islamic banking and finance. Nevertheless since Islamic banking is a growing industry, we believe that the process of further improvement will continue as the business grows.

Credit Risk is the risk which is associated with financing that is mitigated by placing safeguards through available standards within Shari'a guidelines as disclosed in note 42.1 to these financial statements.

Gross income (Revenue less cost of goods sold and after deduction of other direct expenses), generated from relevant assets is calculated at the end of the month. The income is shared between the Bank and the depositors as per agreed profit sharing ratio after deduction of commingled Bank's equity share on pro rata basis. The residual is shared among depositors as per agreed weightages. These weightages and profit sharing ratios are declared by the Bank in compliance with the requirements of the SBP and Shari'a.

The allocation (of income and expenses to different pools) is based on pre-defined basis and accounting principles / standards. Provisions against any non-performing assets of the pool is not passed on to the pool.

4.9 Subordinated Sukuk

The Bank records subordinated sukuk initially at the amount of proceeds received. Profit accrued on subordinated sukuk is charged to the profit and loss account.

4.10 Ijarah (lease) Liability

At the commencement date of the ijarah (lease), the Bank recognises ijarah (lease) liability measured at the present value of the consideration (ijarah payments) to be made over the Ijarah (lease) term. The lease payments are discounted using the effective rate implicit in the ijarah (lease), unless it is not readily determinable, in which case the Mustajir (lessee) may use the incremental rate of financing. After the commencement date, the carrying amount of ijarah (lease) liability is increased to reflect the accretion of finance cost and reduced for the ijarah (lease) payments made.

4.11 Earnings Per Share

Basic EPS is calculated by dividing the profit attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

4.12 Staff Retirement Benefits

4.12.1 Defined benefit plan

The Bank operates an approved funded gratuity scheme for its permanent employees. The liability recognised in the statement of financial position in respect of defined benefit gratuity scheme, is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets. Contributions to the fund are made on the basis of actuarial recommendations. The defined benefit obligation is calculated periodically by an independent actuary using the projected unit credit method. Last valuation was conducted as on December 31, 2023.

Amounts arising as a result of remeasurements, representing the actuarial gains and losses and the difference between the actual investment returns and the return implied by the net interest cost are recognised in the statement of financial position immediately, with a charge or credit to other comprehensive income in the years in which they occur.

4.12.2 Defined contribution plan

The Bank operates an approved funded contributory provident fund for all its permanent employees to which equal monthly contributions are made both by the Bank and the employees at the rate of 10% per annum of basic salary. The Bank has no further payment obligations once the contributions have been paid. The contributions made by the Bank are recognised as employee benefit expense when they are due.

4.13 Revenue Recognition

- Profit from Murabaha is accounted for on consummation of Murabaha transaction. However, profit on the portion of revenue not due for payment is deferred by accounting for unearned Murabaha income with a corresponding credit to deferred Murabaha income which is recorded as a liability. The same is then recognised as revenue on time basis after acquisition of assets. In Murabaha transactions, the Bank purchases the goods and after taking the possession, sells them to the customer on cost plus profit basis either in a spot or credit transaction.
- Profit from Istisna cum wakala and salam financings is recorded on an accrual basis commencing from the time of sale of goods till the realisation of proceeds by the Bank.
- Profit on Shirkatulmilk is recognised on the basis of the reducing balance method on a time apportioned basis that reflects the effective return / profit on the asset.
- Profit on Wakala is accounted for on a time apportioned basis that reflects the effective yield on the asset.
- Profit on Running Musharaka financing is recognised on an accrual basis. Actual profit / (loss) on Musharaka and mudaraba financing is adjusted after declaration of profit / (loss) by Musharaka partner / mudarib or at liquidation of Musharaka / mudaraba.
- Profit on Bai Muajjal transaction is recognised on an accrual basis.
- Gains and losses on sale of investments are included in the profit and loss account.
- Profit on Sukuk is recognised on an accrual basis. Where Sukuk (excluding held for trading securities) are purchased at a premium or discount, those premiums / discounts are amortised through the profit and loss account over the remaining maturity, using the effective yield method.

- Commission on letters of credit, acceptances and guarantees is recognised on receipt basis.
- Fee, commission and brokerage are recognised when earned.
- Profit suspended in compliance with the Prudential Regulations issued by the SBP is recorded on receipt basis. Profit on rescheduled / restructured financings and investments are recognised as per the guidance in prudential regulations.

4.14 Financial Instruments

4.14.1 Financial assets and financial liabilities

All financial assets and liabilities are recognised at the time when the Bank becomes a party to the contractual provisions of the instrument. Financial assets are derecognised when the Bank loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognised when they are extinguished, i.e. when the obligation specified in the contract is discharged, cancelled or expires. Any loss on derecognition of the financial assets and financial liabilities is taken to income directly. Financial assets carried on the statement of financial position include cash and bank balances, due from financial institutions, investments, Islamic financing and related assets, certain receivables and financial liabilities include bills payable, due to financial institutions, deposits, sub-ordinated debt and other payables. The particular recognition methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with them.

4.14.2 Offsetting of financial instruments

Financial assets and financial liabilities are off-set and the net amount is reported in the financial statements only when there is a legally enforceable right to set-off the recognised amount and the Bank intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also off-set and the net amount is reported in the financial statements.

4.14.3 Derivatives

Derivative financial instruments are recognised at fair value. Derivatives with positive market values (unrealised gains) are included in other receivables and derivatives with negative market values (unrealised losses) are included in other liabilities in the statement of financial position. The resultant gains and losses are taken to profit and loss account.

4.15 Fiduciary Assets

Assets held in a fiduciary capacity are not treated as assets of the Bank in these financial statements.

4.16 Acceptances

Acceptances comprise undertakings by the Bank to pay bill of exchange drawn on customers. Acceptances are recognised as financial liability in the statement of financial position with a contractual right of reimbursement from the customer as a financial asset. Therefore, commitments in respect of acceptances have been accounted for as financial assets and financial liabilities.

4.17 Foreign Currencies

Foreign currency transactions and balances

Foreign currency transactions are recorded in rupees at exchange rates prevailing on the date of transaction. Monetary assets, monetary liabilities and contingencies and commitments in foreign currencies, except commitments for forward promises, at the year end are converted in Rupees through exchange rates prevalent on the reporting date.

Forward contracts relating to foreign currency promises are valued at forward rates applicable to the respective maturities of the relevant foreign exchange contracts.

Translation gains and losses

Translation gains and losses are included in the profit and loss account.

Commitments

Commitments for outstanding forward foreign exchange promises are disclosed at agreed rates. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the exchange rates prevalent on the reporting date.

4.18 Provisions and Contingent Assets and Liabilities

Provisions are recognised when the Bank has a present legal or constructive obligation arising as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimates.

Contingent assets are not recognised, and are also not disclosed unless an inflow of economic benefits is probable and contingent liabilities are disclosed unless the probability of an outflow of resources embodying economic benefits is remote.

4.19 Segment Reporting

A segment is a distinguishable component of the Bank that is engaged in business activities (business segment), within a particular economic environment (geographical segment). Performance of each segment is reviewed on a periodic basis.

4.19.1 Business segments

Corporate Banking

Principally handling financing, other credit facilities, deposits, current accounts, cash management and risk management products for corporate and institutional customers.

SME & Commercial Banking

Principally handling financing, other credit facilities, deposits, current accounts, cash management and risk management products for customers of small and medium enterprises and commercial enterprises.

Consumer banking

Principally handling individual customers' deposits, providing consumer musawamah, home finance, car finance and other banking products.

Treasury

Principally responsible for managing the Bank's overall liquidity and market risk and provides treasury services to customers.

Others

Others includes functions which cannot be classified in any of the above segments.

4.19.2 Geographical segment

The Bank operates only in Pakistan.

9.13.2 As allowed by the SBP, the Bank has availed benefit of Forced Sale Value (FSV) amounting to Rs. 215.44 million (2022: Rs. 1,078.16 million) in determining the provisioning against non performing Islamic financings as at December 31, 2023. The additional profit arising from availing the FSV benefit - net of tax as at December 31, 2023 which is not available for distribution as either cash or stock dividend to shareholders amounted to Rs. 109.87 million (2022: Rs. 549.86 million).

9.13.3 General provisioning is held against consumer finance portfolio and small enterprise financings in accordance with the requirements of the Prudential Regulations issued by the State Bank of Pakistan except for Shirkatulmilk financing - Autos. The SBP vide its letter no BPRD / BLRD - 03 / 2009 / 6877 dated October 15, 2009 has allowed relaxation to the Bank from recognising general provision against Shirkatulmilk financing - Autos on the condition that the facility will be categorised as "Loss" on the 180th day from the date of default. In this regard, the SBP vide its letter no BPRD / BRD - 04 / DIB / 2013 / 1644 dated February 12, 2013 has decided that the exemption from general reserve requirement shall only be valid till classified Auto Financing portfolio of the Bank remains upto 5% i.e. if the classified Auto Financing portfolio increases beyond the 5% threshold, the exemption shall stand withdrawn from that point of time.

9.13.4 In addition to the above, the Bank has maintained a general provision of Rs. 2,914 million (2022: Rs. 2,914 million) against financing made on prudent basis, in view of the prevailing economic conditions. This general provision is in addition to the existing requirements of Prudential Regulations.

9.14 Particulars of write offs:

17 SUBORDINATED SUKUKS

	Note	2023	2022
		---- Rupees in '000 ----	
Additional Tier I Sukuk	17.1	3,120,000	3,120,000
Tier II Sukuk	17.2	4,000,000	4,000,000
		7,120,000	7,120,000

17.1 In December 2018, the Bank issued regulatory Shari'a compliant perpetual, unsecured, subordinated privately placed Additional Tier I Sukuk based on Mudaraba of Rs. 3,120 million as instrument of redeemable capital under section 66 of the Companies Act, 2017. The brief description of sukuk is as follows:

Credit rating	A+ (Single A - Plus) by VIS Credit Rating Company Limited.
Tenor	Perpetual
Profit payment frequency	Monthly in arrears
Redemption	Perpetual
Expected periodic profit amount (Mudaraba profit amount)	The Mudaraba Profit is computed under General Pool on the basis of profit sharing ratio and monthly weightages announced by the Bank under the SBP guidelines of pool management. Last announced profit rate on the Sukuk is 24.35% per annum.
Call option	The Bank may call Additional Tier I Sukuk with prior approval of SBP on or after five years from the date of issue.
Loss absorbency	The Additional Tier I Sukuk, at the option of the SBP, will be fully and permanently converted into common shares upon the occurrence of a point of non-viability trigger event as determined by SBP or for any other reason as may be directed by SBP.
Lock-in-clause	Profit and/or redemption amount can be held back in respect of the Additional Tier I Sukuk, if such payment will result in a shortfall in the Issuer's minimum capital or capital adequacy ratio requirement.

17.2 In December 2022, the Bank issued regulatory Shariah compliant unsecured, subordinated privately placed Tier II Sukuk based on Mudaraba of Rs. 4,000 million as instrument of redeemable capital under section 66 of the Companies Act, 2017. The brief description of sukuk is as follows:

Credit rating	AA- (Double AA - Minus) by VIS Credit Rating Company Limited.
Tenor	10 years from the issue date
Profit payment frequency	Semi-annually in arrears
Redemption	On the tenth anniversary from the issue date of sukuk.
Expected periodic profit amount (Mudaraba profit amount)	The Mudaraba Profit is in accordance with the agreed profit sharing ratios / weightages assigned by the bank from time-to-time coinciding with the relevant profit distribution frequency for the relevant profit distribution period. Last announced profit rate on the sukuk is 22.15% per annum.
Call option	The Bank may call Tier II Sukuk with prior approval of SBP on or after five years from the date of issue.
Loss absorbency	The Tier II Sukuk, at the option of the SBP, will be fully and permanently converted into common shares upon the occurrence of a point of non-viability trigger event as determined by SBP or for any other reason as may be directed by SBP.
Lock-in-clause	Profit and/or redemption amount can be held back in respect of the Tier II Sukuk, if such payment will result in a shortfall in the Issuer's minimum capital or capital adequacy ratio requirement.

		<u>(40,400)</u>	<u>(15,000)</u>
		<u>951</u>	<u>4,175</u>

18.1.1 During the year, charity from the Charity Fund of the Bank was paid to the following organisations:

	2023 --- Rupees in '000 ---	2022
Airport Security Force Welfare Foundation	-	500
Aga Khan Hospital and Medical College Foundation	1,000	500
Family Educational Services Foundation	-	500
Koochi Goth Hospital	2,250	500
Nigahban Welfare Association	1,000	500
The Indus Hospital	4,500	800
Trust Jamiat Talimul Quran	4,500	500
Baitussalam Welfare Trust	4,750	4,800
Sindh Institute of Urology and Transplantation	5,250	3,100
The Citizen Foundation	2,000	1,500
KPSS Secondary School Saigolabad - Alif Noon Foundation	1,000	800
Afzaal Memorial Thalassemia Foundation	750	500
Layton Rahmatulla Benevolent Trust	1,750	500
Child Aid Association	1,750	-
Habib University Foundation	1,500	-
Patients Aid Foundation	7,300	-
Tabba Heart Institute	1,100	-
	<u>40,400</u>	<u>15,000</u>

18.1.2 Charity was not paid to any active staff of the Bank or to any individual / organisation in which a director or his spouse had any interest at any time during the year.

18.2 Workers welfare fund

Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government in respect of levy of Workers Welfare Fund (WWF) were not lawful. The Federal Board of Revenue (FBR) challenged the said order by way of review petition before Supreme Court. While the petition is still pending, however, the outcome is expected to be in favor of the Bank.

Further, consequent to the 18th amendment to the Constitution, the Government of Sindh levied its WWF (Sindh WWF) which was effective from January 01, 2014. The definition of industrial undertakings under the aforesaid Sindh WWF law covers banks and financial institutions as well. The Bank has challenged applicability of the said law on Banks before the Sindh High Court.

The income tax authorities have amended assessment orders of the Bank for prior years including the tax year 2022. The issues contested mainly include adjustment of minimum tax, charge/reversals of provision against financing and investments, initial allowance on fixed assets, Workers Welfare Fund and finance and depreciation cost on leased assets amounting to Rs.465.5 million. The Bank has filed appeals before the various appellate forums against these amendments. Out of the total contingent liability, Rs. 211.48 million pertains to tax year 2015 where tax authorities have issued a notice to amend assessment against the adjustment of minimum tax paid in prior years. The management of the Bank approached Sindh High Court and subsequently the Honorable Supreme Court of Pakistan against the order of the Sindh High Court. The Honorable Supreme Court of Pakistan has granted leave to appeal. The appeal is expected to be fixed soon. Through Finance Act 2021 favorable amendment has been made to section 113(2)(c) strengthening Bank's stance on adjustment of minimum tax for the years where no tax was payable. The management of the Bank is confident that the appeals will be decided in favor of the Bank in respect of the aforementioned matters.

30.1 The Government of Pakistan imposed additional tax under section 99D of Income tax Ordinance, 2001 on Foreign Exchange income of Banking Companies through S.R.O. 1588(1)/2023 dated 21st Nov 2023 for the tax years 2022 and 2023. In this respect the aggregate prior year tax charge for the year ended December 31, 2023 is Rs. 588.36 million. As per the advice of tax consultant and legal counsel, Bank has obtained stay order from Honorable Sindh High Court against recovery of this levy until final outcome of the case.

30.2 Through Finance Act 2022 and 2023, the effective tax rate on banking companies has been increased and consequently for the years 2023 and onwards, tax rate has been enhanced to 49% (inclusive of 10% Super Tax). Accordingly, Bank has recognized additional deferred tax asset of Rs. 202.089 million.

34 DEFINED BENEFIT PLAN

34.1 General description

As mentioned in note 4.12.1, the Bank operates a funded gratuity scheme for all its permanent employees. The benefits under the gratuity scheme are payable on retirement at the age of 60 years or earlier cessation of service, in lump sum. The benefit is equal to one month's last drawn basic salary for each year of eligible service with the Bank subject to a minimum qualifying period of service of three years.

34.2 Number of employees under the scheme

The number of employees covered under the following defined benefit scheme are:

	2023	2022
	----- (Number) -----	
Gratuity fund	<u>2,562</u>	<u>2,432</u>

34.3 Principal actuarial assumptions

The actuarial valuations were carried out at the year end using the following significant assumptions:

	2023	2022
	----- Per annum -----	
Discount rate	16.75%	13.25%
Expected rate of return on plan assets	16.75%	13.25%
Expected rate of salary increase	14.75%	11.25%

34.4 Reconciliation of payable to defined benefit plan

	2023	2022
	--- Rupees in '000 ---	
Present value of obligations	731,640	612,924
Fair value of plan assets	(681,640)	(590,589)
Payable to defined benefit plan	<u>50,000</u>	<u>22,335</u>

	Note	2023 --- Rupees in '000 ---	2022

	Actuarial loss on plan assets	24,063	9,489
	Total re-measurements recognised in OCI	<u>52,986</u>	<u>36,925</u>
34.9	Components of plan assets		
	Cash and cash equivalents	136,640	493,783
	Sukuks	545,000	96,806
		<u>681,640</u>	<u>590,589</u>

34.9.1 Risks

Through its defined benefit plan, the Bank is exposed to a number of risks, the most significant of which are detailed below:

Investment risk

The risk arises when the actual performance of the investments is lower than expectation thus creating a shortfall in the funding objectives.

Longevity risks

The risk arises when the actual lifetime of retirees is longer than expectation. This risk is measured at the plan level over the entire retiree population.

Salary increase risk

The risk arises when the actual increase is higher than expectation and impacts the liability accordingly.

Withdrawal risk

The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit obligation. The movement of the liability can go either way.

34.10 Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	2023 Rupees in '000
1% increase in discount rate	<u>683,416</u>
1% decrease in discount rate	<u>786,490</u>
1 % increase in expected rate of salary increase	<u>786,996</u>
1 % decrease in expected rate of salary increase	<u>682,225</u>
1 year increase in Life expectancy / Withdrawal rate	<u>726,853</u>
1 year decrease in Life expectancy / Withdrawal rate	<u>727,851</u>

34.11 Estimated expenses to be charged to profit and loss account

Based on the actuarial advice, the management estimates that charge and expected contribution in respect of defined benefit plan for the year ending December 31, 2024 would be Rs. 116.93 million and Rs. 166.93 million respectively.

34.12 Maturity profile

The weighted average duration of the defined benefit obligation is 8.31 years.

34.13 Funding Policy

The activities of the gratuity scheme are governed by Dubai Islamic Bank Pakistan Limited Gratuity Fund established in 2006 under the provisions of a trust deed. Plan assets held in trust are governed by the Trust Deed as is the nature of the relationship between the Bank and the trustees and their composition. Responsibility for governance of the plan including the investment decisions lies with the Trustees. Funding levels are monitored on an annual basis and are based on actuarial recommendations.

34.14 Following are the significant risks associated with the gratuity fund scheme:

Asset volatility	The plan assets includes cash and cash equivalents and sukuku. The Fund believes that due to long-term nature of the plan liabilities and the strength of the Bank's support, the current investment strategy manages this risk adequately.
Inflation risk	The majority of the plans' benefit obligations are linked to inflation, and higher inflation will lead to higher liabilities. However, plan assets are based on variable rate and are re-priced at regular intervals to off-set inflationary impacts.
Life expectancy / Withdrawal rate	The majority of the plans' obligations are to provide benefits on severance with the Bank on achieving retirement. Any change in life expectancy / withdrawal rate would impact plan liabilities.

35 DEFINED CONTRIBUTION PLAN (PROVIDENT FUND)

The Bank operates a contributory provident fund scheme for permanent employees. The number of employees eligible for the scheme at the end of the reporting year is 2,194 (2022: 2,090). The employer and employee both contribute 10% of the basic salaries to the funded scheme every month. Equal monthly contribution by employer and employees during the year amounted to Rs. 157.43 million (2022: Rs. 136.32 million) each.

36 COMPENSATION OF DIRECTORS AND KEY MANAGEMENT PERSONNEL

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

		58,810,600	8,043,600	5,579,776	503,076

40 RELATED PARTY TRANSACTIONS

The Bank has related party relationship with Dubai Islamic Bank P.J.S.C, U.A.E, the holding company, directors, related group companies, associated companies, key management personnel and Staff Retirement Funds.

A number of banking transactions are entered into with related parties in the normal course of business. These include financing and deposit transactions. These transactions are executed substantially on the same terms including profit rates and collateral, as those prevailing at the time for comparable transactions with unrelated parties and do not involve more than a normal risk. Contributions to staff retirement benefit plan are made in accordance with the terms of the contribution plan. Remuneration and other benefits to the executives are determined in accordance with the terms of their appointment.

Usual transactions with related parties include deposits, financing, returns and provision of other banking services. Transactions with executives are undertaken at terms in accordance with employment agreements and service rules.

The details of transactions with related parties and balances with them are given below:

41.1 Capital management

Capital Management aims to safeguard the Bank's ability to continue as a going concern so that it could continue to provide adequate returns to shareholders by pricing products and services commensurately with the level of risk. For this the Bank ensures strong capital position and efficient use of capital as determined by the underlying business strategy i.e. maximizing growth on continuing basis. The Bank maintains a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognised and the Bank recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

The State Bank of Pakistan (SBP) has prescribed guidelines with respect to disclosure of capital adequacy related information in the financial statements of banks. These guidelines are based on the requirements of Basel III which were introduced earlier by the SBP in August 2013 for implementation by banks in Pakistan. The disclosures below have been prepared on the basis of the SBP's guidelines.

41.2 Goals of managing capital

The goals of managing capital of the Bank are as follows:

- To be an appropriately capitalised institution, considering the requirements set by the regulators of the banking markets where the Bank operates;
- Maintain strong ratings and to protect the Bank against unexpected events; and
- Ensure availability of adequate capital at a reasonable cost so as to enable the Bank to operate adequately and provide reasonable value addition for the shareholders and other stakeholders.

41.3 Statutory minimum Capital Adequacy Ratio requirement:

In implementing current capital requirements the State Bank of Pakistan requires banks to maintain minimum Capital Adequacy Ratio (CAR) of 12.50%, whereas since COVID the requirement has been reduced to 11.50% and CAR stood at 17.99% at the year ended December 31, 2023.

41.4 Capital Structure

Under Basel III framework, the Bank's regulatory capital has been analysed into two tiers as follows:

- Tier I capital (going concern capital) which is sub divided into:
 - a) Common Equity Tier I (CET I), which includes fully paid up capital, reserve for bonus issue, general reserves and unappropriated profits (net of losses), etc. after regulatory deductions for investment in own shares, and book value of intangibles.
 - b) Additional Tier I capital (AT I), which includes perpetual, unsecured, sub-ordinated, non-cumulative and contingent convertible Sukuk instrument issued by the Bank.
- Tier II capital, which includes sub-ordinated sukuk, general provisions for loan losses (upto a maximum of 1.25% of credit risk weighted assets), reserves on revaluation of available for sale investments after deduction of indirect holding of own capital.

Banking operations are categorised in either the trading book or the banking book and risk weighted assets are determined according to the specified requirements that seek to reflect the varying levels of risk attached to assets and off balance sheet exposures.

	2023	2022
	---- Rupees in '000 ----	
Leverage Ratio (LR):

41.5 The full disclosures on the capital adequacy, leverage ratio & liquidity requirements as per SBP instructions issued from time to time is available at <https://www.dibpak.com/index.php/financials>.

42 RISK MANAGEMENT

The wide variety of the Bank's business activities require the Bank to identify, assess, measure, aggregate and manage risks effectively which are constantly evolving as the business activities expand in response to the Bank's strategy and growth. The Bank manages the risk through a framework of risk management encompassing policies and procedures, organisational structures, risk measurement and monitoring processes and techniques that are closely aligned with business activities of the Bank.

In the currently competitive banking market the Bank's rate of return is greatly influenced by its risk management capabilities as "Banking is about managing risk and return". Success in the banking business is not to eliminate or avoid risk altogether but to proactively assess and manage risks for the organization's strategic advantage.

Risk Framework

The Bank's Risk management framework is based on three pillars; (a) Risk Principles and Strategies, (b) Organizational Structures and Procedures and (c) Prudent Risk Measurement and Monitoring Processes which are closely aligned with the activities of the Bank so as to give maximum value to the shareholders while ensuring that risks are kept within an acceptable level / risk appetite.

The Board determines the overall risk appetite and philosophy for the Bank. The overall risk is monitored by the Board Risk Monitoring Committee (BRMC). The terms of reference of BRMC have been approved by the Board. Various Management Committees such as Risk Management Committee (RMC), Management Credit Committee (MCC), Asset and Liability Committee (ALCO) and Control and Compliance Committee to support these goals.

The Chief Executive Officer (CEO) and Chief Risk Officer (CRO), in close coordination with all businesses / support functions, ensure that the Risk Management Framework approved by the Board is implemented in true spirit and risk limits are communicated and adhered for quantifiable risks by those who accept risks on behalf of the Bank. Further, they also ensure that the non-quantifiable risks are communicated as guidelines and adhered to in management business decisions.

Risk Appetite

Risk management across the Bank is based on the risk appetite and philosophy set by the Board and the associated risk committees. The Board establishes the parameters for risk appetite for the Bank through:

- Setting strategic direction;
- Contributing to, and ultimately approving plans for each division; and
- Regularly reviewing and monitoring the Bank's performance in relation to risk through related reports.

It is to be ensured that the risk remains within the acceptable level and sufficient capital is available as a buffer to absorb all the risks. It forms the basis of strategies and policies for managing risks and establishing adequate systems and controls to ensure that overall risk remain within acceptable level.

Risk Organisation

The nature of the Bank's businesses requires it to identify, measure and manage risks effectively. The Bank manages these risks through a framework of risk vision, mission, strategy, policies, principles, organizational structures, infrastructures and risk measurement and monitoring processes that are closely aligned with the activities of the Bank. The Bank Risk Management function is independent of the business areas.

In line with best practices, the Bank exercises adequate oversight through the Risk Management Committee and the Bank's Risk Management Group and has developed an elaborate risk identification measurement and management framework.

Along with the above, business heads are also specifically responsible for the management of risk within their respective businesses. As such, they are responsible for ensuring that they are in compliance with appropriate risk management frameworks in line with the standards set by the Bank.

Business heads are supported by the Risk Management Group and the Credit Approval. An important element that underpins the Bank's approach to the management of all risk is independence, where the risk monitoring function is independent of the risk taking function.

The Bank also has credit risk, market risk, liquidity risk, operational risk, and investment policies in place.

42.1 Credit Risk

Credit risk arises from the potential that an obligor is either unwilling to perform on an obligation or its ability to perform such obligation is impaired resulting in economic loss to the Bank. The credit risk arises mainly from both direct financing activities as well as contingent liabilities. The objective of credit risk management framework / policies for the Bank is to achieve sustainable and superior risk versus reward performance whilst maintaining credit risk exposure in line with the approved risk appetite.

The Bank has adopted Standardised Approach for calculation of capital charge against credit risk. Therefore, risk weights for the credit risk related assets (on-balance sheet and off-balance sheet - market and non-market related exposures) are assigned taking into consideration external rating(s) of counterparty(s) for the purpose of calculating Risk Weighted Assets.

The Bank has its own credit rating system (Moody's) in place which takes into account both quantitative and qualitative aspects. In addition, pro-active credit risk management is undertaken through risk concentration, counterparty limits, counterparty group limits and industry concentration limits, defining minimum risk acceptance criteria for each industry. Periodic review process and risk asset review coupled with policies on internal watch listing are capable of identifying problem financings at an early stage. In addition a full-fledged Special Assets Management (SAM) department has also been set up for dealing with problem accounts.

42.2 Market Risk

Market risk is the risk that the value of the on and off balance sheet positions of the Bank will be adversely affected by movements in market rates or other underlying risk factors.

The Bank manages the market risk in its portfolios through its Market Risk Management framework and methodologies set out in its Board approved Market Risk Policy as per the SBP guidelines. A separate market risk monitoring function has also been set up.

Market Risk at the Bank is controlled by:

- Identifying the relevant market risk factors for a particular product, portfolio or business proposition;
- Applying an appropriate limit structure; and
- Setting and monitoring appropriate levels of limits.

These are adequately supported by stringent operational controls and standards and compliance with internal and regulatory policies.

Standard risk management techniques and tools have been adopted by the risk management group, including the SBP mandated stress testing methodology to monitor and manage market risk. The Bank has adopted Standardised Approach for calculation of capital charge against market risk charge.

42.2.1 Balance sheet split by trading and banking books

	2023			2022		
	Banking Book	Trading Book	Total	Banking Book	Trading Book	Total

42.2.2 Foreign Exchange Risk

Currency risk is the risk of loss arising from the fluctuations of exchange rates.

In the normal course of conducting commercial banking business, which ranges from intermediation only to taking on principal risk as dealer or as counterparty, the Bank purchases or sells currencies in today / ready and gives or receives unilateral promises for sale or purchase of foreign exchange at future dates in a long or short position in different currency pairs. These positions expose the Bank to foreign exchange risk. To control this risk, the Bank primarily uses principal limits at various levels to control the open position, and ultimately the residual foreign exchange risk of the Bank. The Bank also strictly adheres to all associated regulatory limits.

The following is a summary of the assets of the Bank subject to foreign exchange risk:

	2023				2022			
	Foreign Currency Assets	Foreign Currency Liabilities	Off-balance sheet items	Net foreign currency exposure	Foreign Currency Assets	Foreign Currency Liabilities	Off-balance sheet items	Net foreign currency exposure

42.2.3 Equity position Risk

The Bank had no exposure to equities as at the reporting date.

42.2.4 Yield / Profit Rate Risk

All products dealt in by the Bank are duly approved by the Bank's Shari'a Board / Resident Shari'a Board Member and the Bank does not conduct any business in interest related products.

The objective of yield / profit rate risk monitoring is to manage the resultant impact on the Bank's statement of financial position due to changes in profit / return on investment and financing products. Yield / profit rate risk review of the statement of financial position is also done monthly in ALCO meetings. Various ratios as prescribed by the SBP are also monitored. The Bank also uses Gap Analysis and Notional Principal Limits to monitor the risks.
